

Vote Harvey Mordue 4 Treasurer

About Me:

I'm currently in my first year studying Economics with Finance pathway modules. The course teaches many skills perfectly suited to the role of Treasurer, including analytical, mathematical, and decision-making skills. It also means I'm a **true freak in the spreadsheets!!! (I LOVE A SPREADSHEET)**

My previous experience as an Assistant Economist and in bookkeeping will offer a strong foundation for me as Treasurer, while also allowing for a smooth transition. Other than rowing and my degree, I've got plenty of time to crunch numbers for the club in order to get us closer to some shiny new boats! I have loved learning to row with UOLBC and am committed to supporting the club in the best way I know how.

We may have had times of unbalanced finances, but I promise to adjust those handle heights to keep the finances stable, and the boathouse afloat!!!

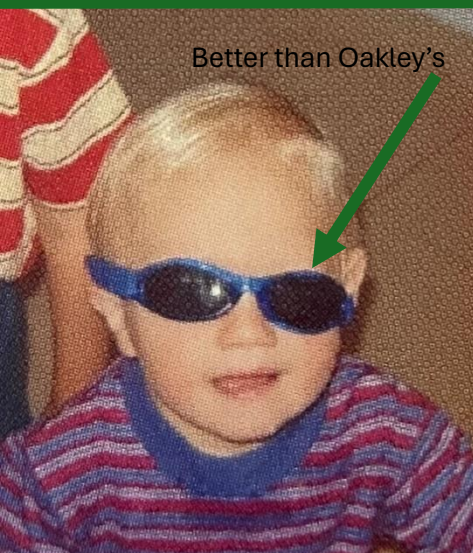

My Aims:

- Ensure more transparent club finances via a monthly profit and loss statement to guarantee you know how your funds are spent.
- Maintain the seat fee cap to further promote inclusivity in the club and strive to keep the membership fees low, through securing extra funding.
- Release fee estimates when the races are announced to allow members to better plan their future costs while at the club.
- Work closely with Dan, the Captains, and Committee to ensure the continued smooth running of the club and chip in wherever I can to assist, no matter the task.
- Ensure efficient allocation of funds, processing of invoices, and payment of fuel and other costs to minimize losses for the club or yourself.
- Work with the fundraising and alumni secretary to partner with local businesses to tap into potential funding and sponsorship opportunities, **ensuring our finances stay afloat!**

Vote Harvey Mordue for Treasurer if you want the club to be better funded, more financially transparent, and inclusive, so everyone can enjoy rowing for less and with better equipment!!
