

# YOUR VOICE. YOUR YEAR.

## VOTE MUHAMMAD HAKIM

### ABOUT ME

I'm Muhammad, a first-year medical student from Preston who wants to make sure every student has a voice.

I'm approachable, open to different perspectives and committed to listening, representing your concerns and following them through. For me, being a rep means making sure your feedback is heard- and you know what happens next.

### LISTEN

***YEAR 1 PULSE*** A quick monthly check-in for the whole cohort to share what's going well, what could improve, and what you want raised. I'll identify recurring themes to make sure feedback reflects the wider year group.

### REPRESENT

#### ***TURN FEEDBACK INTO ACTION***

I'll bring recurring and important concerns to MSRC, module leaders and Year 1 leads. Where possible, I'll use the feedback collected to clearly show what students are experiencing and what improvements could be considered.

### FOLLOW UP

#### ***DON'T LET FEEDBACK DISAPPEAR***

Once an issue has been raised, I'll keep track of it and follow up with the relevant people. I'll make sure concerns don't simply get mentioned once and forgotten.

### KEEP YOU INFORMED

#### ***YOU SAID → WE RAISED → UPDATE***

I'll regularly share updates with the cohort on the feedback that has been raised and the responses received. Where something changes, I'll let you know — and where something can't be changed, I'll communicate the reason.
