

## Nomination for Social Secretary- ELLA THACKER

### Importance of social media:

Using this as a platform to raise awareness and understanding about nursing.

As social secretary I will transfer this passion to ensuring the societies social media platforms are engaging and provide the necessary information and exciting news.

### Reasons why I wish to be social secretary:

- I enjoy planning large events and being the organization behind the scenes.
- I wish to find new places, events and activities for people to enjoy.
- I strongly believe about the importance of the nursing society using fun events to step away from the stresses of being a student between high loads of work and placement.

### What will I do as social secretary:

- Continue the amazing work of the previous committee.
- Work with the rest of the team to find and provide events such as the Nursing and Midwifery ball, pub quiz nights, fitness activities and take plenty of photos to share!
  - Collaborate with other societies.
- Most importantly... allow members of the society to have fun and get to know new people.
