

JAMES 4 TREASURER

Name: James McKeen

Year: 2nd

Course: Meng Civil Engineering (yes I do indeed have a burning passion for concrete and bridges)

Favourite shot: Got to be a straight drive, sometimes a tequila

Favourite social: Otley Run

Can be found: Convincing people that I have a slight northern accent

Past experience: school council treasurer in Year 5

Strengths: Curtains

Weaknesses: Backhand boasting

What I will do:

- Aim to increase number of members/freshers joining to increase society fund
- Swiftly respond to expense claims for away game travels
- Staying organised with the budget throughout the year
- Ensuring money goes towards the right things
- Being a friendly face in the society and getting members involved

Being a part of the society has come with so many great memories and I want members to have a blast. I believe that I have strong organisational and communicational skills to budget and manage funds, whilst providing input to the rest of the committee to further improve the society.
