- HKPASS Social Service 21/22 - distributing homemade muffins to the homeless

WHY THIS POST

As part of the Scout Association since I was seven, I have always understood how small acts of kindness contribute to a more positive community. I therefore wish to promote volunteerism and provide more service opportunities for Hong Kongers studying abroad. Besides my traits and enthusiasm, I am confident that my experience in organizing community services and transferable skills gained through participating in various voluntary work (conservation, animal care, teaching, counselling, healthcare, and community development) make me an ideal candidate for Social Service Officer.

AIMS AND OBJECTIVES

- Be dedicated, dutiful and cooperate with other Committee members
- Organize different social services and collaborate with other agencies to provide a variety of service opportunities for volunteers
- Promote volunteerism, encourage sub-committee members and Hong Kongers to get involved in different types of voluntary work and serve our new community
