

## What I'll do

- Expand the newsletter with advice on how to get involved in research and expand portfolios
- Develop a medical student research network – connecting students to projects and encouraging collaboration
- Establish research specific teaching sessions

# Vote Miriam for Research Director!

My aim is to make research:

- Accessible
- Exciting
- Collaborative

## Why?

- Passionate about surgical research
- EXSEL scholar
- Research exposure and experience (including a national multicentre clinical audit)
- Actively undertaking surgical research (At St James' about frailty in GI surgery in elderly patients)
- Passion for innovation in peri and post-operative care
- Active member of cutting edge, attending suturing series and conferences
