

Trust Rach B with the Money!

Sadly, for us broke Uni students, money doesn't grow on trees, so let me take care of those pounds carefully to help them go further!

My Ideas for Treasurer:

Firstly, I am in love with Exposé and its beautiful people. Sounds dramatic but genuinely would have dropped out of Uni without it!

I also have more ideas for Committee such as LUU comp choreo, show organization (including how to get another week of rehearsals to reduce that pre-pro stress!) and more that I'll share at the AGM!

My Experience:

Increase Comp-fund for costumes and coaches so we can get to another comp!

Price redistribution for shows to offer more student deals to increase turn out and hence profit.

Adding fishnet tights to base costume to allow the costume fund to go further.

Installment payments for memberships so it's not a big expenditure at once!

More fundraisers, collaborations and publicity (possible Terrace collab - cocktails anyone?!) to get more sell-out events!

Illustrative and accurate forecast of where your money gets spent and a poll for you to vote on where you want your money to go!

Secondly, dancing is my favourite thing on the whole planet. Exposé has allowed me to carry on when I thought I'd end up stopping at uni. I would love to be involved in anyone's dance journey and make it the best it can be for them!

Have experience in management at numerous dance productions so would be able to liaise with Backstage and try to make transitions between dances stress-free! Also have been on an, albeit informal, audition panel.

Super organized - worked 3 jobs at one point and only managed to stay afloat by being organized! Doing joint honors is also lots of organizing and communicating with two separate schools, both good skills for this role.

Worked in a secondary school and was 'Meltdown Miss' for anyone that needed someone to talk to, so very happy to help people and be a friendly face!

Maths and Further Maths A-Level, currently studying Economics and History and spend an embarrassing amount of time on Excel so bit of a maths geek tbh!

Over 2 years full-time dance teaching experience from ages 2-18, including extensive choreographing.

Especially in dance teaching, my boss came to me when she needed advice on finances or help organizing the team.

Set up pricing strategies that my dance school still uses now.
