My name is Sakshi Phulkar, and I am currently pursuing an MSc in Electrical Engineering and Renewable Energy Systems, having completed my Bachelor's in Electrical Engineering from Dr. Babasaheb Ambedkar Technological University, Raigad. I have always been deeply inspired by the life and teachings of Babasaheb Ambedkar, and over the years, I have learned immensely from his vision, dedication, and commitment to social justice. I now feel it is my time to take meaningful action and contribute actively to society by serving as the Secretary of our state Ambedkar Society. In this role, I aim to manage all official communications, documentation, and administrative logistics efficiently, ensuring smooth operations that support the society's mission.

It has been a long-standing dream of mine to follow in the footsteps of Babasaheb not to reach his extraordinary heights, which may not be possible, but to sincerely walk the path he laid for us. I understand the challenges that come with this responsibility, but I am fully committed to working diligently, with honesty and dedication, to bring positive impact and uphold the values he championed. I sincerely thank you for considering my application, and I am eager to contribute wholeheartedly to the growth and success of our society.
