

Firstly, what should you know about me?

My name is Louie, I will be starting my second year in September and will become one of the IC powertrain leads woo! I consider myself a very sporty person, having played rugby and football throughout my childhood along with playing tennis for 4 years. I grew up in Rochdale, Manchester and I am one of the lucky ones who made it out. Certified Drake glazer but also love indie/ indie rock music. Man united fan for those of you who care.

Why you should vote me as social sec for F27

I will make FS socials welcoming to everyone, with the goal to get the most attended social in FS's short history. I plan to have some socials where the event will be decided via a vote in the FTM because I love democracy. I also plan on encouraging the new first years to get involved with socials early on, as I think this can benefit the group socially but also benefit each subteam because I strongly believe this can boost their confidence, output and communication.
