

ALICE BELL

TREASURER

I am a second year adult nursing student, living in Leeds.

As treasurer, through co ordinating with other members of the committee, I am eager to gain a greater understanding as to how I can ensure the society runs efficiently and productively. I will keep an accurate account of the society's funds, through breaking down membership fees to guarantee that it can afford to keep organising events such as the summer ball.

Through being on the committee I would like the opportunity to introduce a sports (maybe netball) team for nursing students, which would be enjoyable and lighthearted. It would be a great teamworking activity, giving the chance to meet with other nurses. I also believe that sport is great outlet for stress!

As well as that, because I am going into my final year, I feel passionate about supporting other nursing students through their placement and studies. This can be achieved through organising casual meet ups and study sessions within the union as an outlet to socialise and get help.

I have loved being part of the nursing society, therefore I would like to have a more active role in contributing to the running of the society. I have the confidence that I can fulfil the role of the treasurer. This is because of my good organisational skills that I have developed through university and, my part time job, as a waitress. Furthermore, I like and make conscious efforts to manage my personal finances. I believe I am a fast learner and will adapt to the role quickly. I am excited to learn a new skill and have the responsibility of being the treasurer. I enjoy working within a team, I always aim to be friendly and kind, as well as being open to listen and happy to help anyone.
