

# Vote Flora for SECRETARY

Bailey

(a good boy and potential future LUU esports mascot?)

Flora (she/her)

(lulu onetrick and maybe LUU esports secretary 2023?)

hey, hello, hola - I'm Flora or seq, and some of you League of Legends gamers (or fellow masochists) may know me as one of the two LoL ambassadors this year, but for next year I want to run for LUU esports and video game society **secretary**! (:

I'm 19 and in my 2nd year of an integrated masters Neuroscience degree, with plans to specialise either in clinical neurophysiology or sports performance neuroscience.

I have a deep love for my peepos (thank you, Discord Nitro) in my LoL announcements and I don't plan on stopping that any time soon (apologies)

I used to be an absolutely shameless dirty lulu onetrick, but I have attempted to expand my champion pool recently to include... karma and nami. I played in NSE and WNUEL league tournaments in the Winter Split and have been hanging around as a sub for the Spring Split just passed - both were a lot of fun even though we were absolutely not the best teams.

I haven't been at socials as much as I would like this year because walking up Hyde Park hill can be a *challenge*, however next year I am living a lot closer and plan to come whenever I can (:

Alongside LoL I am absolutely handicapped by OSX however do manage to play some variety games along with the standard jackbox, skribbl etc.

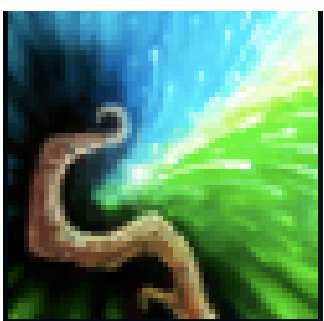

# PREVIOUS EXPERIENCE

I have previously been/ currently am mod/admin in various proplayer/streamer discords (Selfmade, Nemesis, Swallaspaa, main FNATIC discord) within the league community - in the larger servers, it often fell to me to minute the meetings so this is something I already feel comfortable with (:

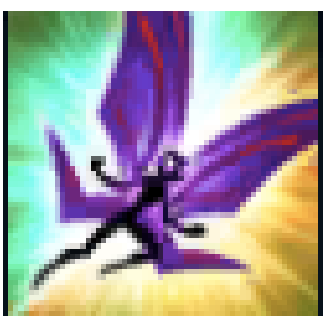

As mentioned, I was of the LoL ambassadors this year & was involved in a lot of NSE/NUEL organisation which could transfer over to management of society resources, for example :D

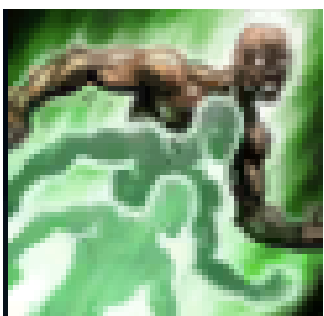

I am an absolute gsheets nerd and have previously (successfully) ran two tournaments of 80+ people almost, and am currently in the process of running another, entirely off of google sheets and google docs, so the secretarial role of managing the google drive and editing documents weirdly sounds very fun to me XD

## SOME IDEAS...

**ESPORTS NEWSLETTER:** At the beginning of the year, I want to host a skribbl/general drawing event where people get to draw their version of the LUU esports logo (the more memeable, the better) to be used on newsletters, as well as occasional interviews with our players in NSE/NUEL across all our esports (unserious) to give a platform to all our dedicated and talented gamers :thumb:

**SOCIAL MEDIA:** I want to work with the rest of the committee to boost LUU esports Twitter, Twitch and other social accounts - we can promote our streamers within the society by hosting on Twitch, as well as streaming customs/inhouses across our games/at socials, and post more about our accomplishments, socials and join in with the banter of other esports societies across the country and cement our place as the meme kings and queens of esports society Twitter (a bit of friendly flame never hurt nobody, right?)

---

Thanks for reading this far!! I hope I can count on your votes, and if elected, can continue the amazing work of this year's committee & can help the society reach new heights in 2022/23!!

please feel free to **contact:** seq#8492 // @floralouisagx on Twitter

don't even try and debate it Rob, you know it's true
