

Hi!

I'm Simran and I'm applying for the Treasurer role within Leeds DentSoc! I believe I am perfect for this role as I take enjoyment from managing my finances and budgeting. I believe that I could really be an asset to the team and would love to work within and outside of the committee to ensure that all decisions are in the best interests of everyone.

I understand this role requires a lot of organisation and responsibility but I feel prepared to take it on. I've had experience with handling cash through my previous jobs, personal expenditures and the pressures of organising an entire hen do full of activities whilst keeping costs and people's budgets in mind!

Although I am a first-year candidate, I feel well poised to take it on. Even though my gap years were during covid ☹️, I still felt I learned a lot about myself - how to perfect my time management, and communication skills and learn how to juggle a lifestyle with two jobs at the same time. I make the most of my expenditures and cut costs where necessary to reach the same outcome! This can be applied within Dentsoc activities to ensure everyone still has the same experiences if not better!

Can't wait to meet everyone and have lit nights out!
