

# ANDREA FOR WILS STEM DIRECTOR

Hi to everyone!!!

My name is Andrea Morter, and I am a Penultimate year **International Development with Quantitative Methods Student**. Since joining WILS in my first year, it has been such a positive experience for me in university. Following my third year, I will be pursuing my **MSc in Data Science and Analytics**.

## WILS EXPERIENCE

- **Corporate Relations Officer** in helping to organise the largest Empower Conference ever (+370 students).
- Part of **Inclusion sub-committee**, and created a 60-page journal on inclusion reaching over 670+ views.
- **Events Director** in creating career and social events and bringing all members together, having collaborated previously with PwC and RSM.

## My Proposals for next year :)

1. **Office visits and Insight days** of STEM companies in Leeds.
2. **Networking events** solely dedicated to female STEM students to connect with the industry at a personal level.
3. Work closely with the newsletter officer to **advertise STEM events and job opportunities** within the UK and Leeds.
4. **Initiating quantitative skills workshops** for all members, such as 'Classes in mastering **Excel**'.

## Relevant Experience

**Data Analyst** at Leeds Policy Institute in Mastering software such as Macrobond and QGIS.

**Research and Data Analyst** at Sterling Development International and CIO International for over 2 years.

**Data Analyst** at British International Studies Association (BISA) to help promote proposals to curb carbon emissions.

**Q-step Summer School student** at University of Leeds to improve my software skills.

Currently enrolled on **Bright Networks Technology Academy** 12-week programme to become Software Developer.

**I aim for our STEM members to SUCCEED and be CONFIDENT in their CAPABILITIES**
