

Molly Nixon for Social Secretary

Proposed by: Lizzy Choong

Seconded by: Olivia Lambe

Hello LUUWRUFC! I've enjoyed my first year of playing rugby and getting hammered with this team so much that I think it's my turn to give back. Being social sec is such a big role, but I'm definitely up to the task.

Rugby has been a big part of my life for many years and my favourite part has always been how encouraging we are as a community. I think its important to welcome new members to the club, whether that's at the fresher's fair, during training or at socials, as well as making sure everyone (new and old) is enjoying being a part of rugby!

When it comes to planning socials, I will be well suited to organising all aspects, from when and where we meet, the theme of that night, and any tickets we may need. I may have too much faith in my ability to haggle, but I will make sure we're getting the best deals we can. Also, as some of you can probably attest to, I can be quite loud on and off the pitch. During socials, I'll be able wrangle any freshers on a night out and hand out fines with or without a megaphone (there is no escaping). I also want to emphasise that I would never want anyone to do something I wouldn't do myself, but I have also tried to crowd surf at pryzm (tragic) and given a random a lap dance in revs (even more tragic) so be ready to get a little bit embarrassing.

Next year, I want to plan more events outside of Wednesday socials, which will be a wide range of things, from day trips to meals out, etc – I will be open to any suggestions! As much as I love seeing everyone on a Wednesday night, I think that more activities that aren't based around a night out might make a nice change.

Another big part of the role is planning tour. Obviously, this year is a lot to live up to in terms of the amazing planning that managed to save our tour (thank you Lizzy, and everyone that helped!!). At this point, I haven't been on tour, and neither have most of us, so I can't say that I have much idea of how it will go. However, I have been on enough girls' holidays to know what the essentials are and will be able to manage every step of the process, from initial planning to the journey home.

I'm so excited to, hopefully, be your social sec, and can't wait to get started!
