<ul style="list-style-type: none">• Excel Skills (who knew Chemistry was purely Excel?)	<ul style="list-style-type: none">• Far too attached to my skis (as known from last night in Alpe D'Huez)
<ul style="list-style-type: none">• Can get from top to bottom of a mountain in almost one piece	<ul style="list-style-type: none">• Cannot sink a pint (despite my best efforts)

My Aims:

- Secure funding for beginner lessons, so more of you lovely lot can get sendy on the mountain. The more the merrier!
- Donate proportions of ticket sales to charities and Snowsport organisations, whilst continuing this years food bank donations.
- Work closely with merch and holiday secs to keeps costs as low as possible.
- Regular Cas giveaways because who doesn't love free stuff!
- Host second hand equipment sales to make the sport more affordable with some retro gear.
- And finally, big bar tabs because what better way to meet new people than with a free drink in hand.

Why Me?

- I enjoy dealing with money- financing and doing maths. In my current job I often balance the accounts and write invoices, so I know how to avoid bankruptcy.
- I'm Northern asf so negotiations shouldn't be an issue.
- Joining Snowriders has been the highlight of my Uni experiences so far, where everyone has always been friendly and welcoming, I would love to keep this tradition going.
- I spend more time skiing than I do on my degree, I'm also very open and approachable so will spread the passion for both skiing and boarding to bring new members to the club.
