

MEDIA & PUBLICITY SEC

VOTE FOR MARCUS

I'm Marcus, a first-year Law Student. I'd love to take on this position as I have lots of experience in digital marketing and advertising which I can bring to the Law Society. All I ask for now is your vote!

EXPERIENCE

- Created several media advertisements for events at my accommodation such as creating flyers and taken photos at the events.
- Managed the online presence and marketing of a popular cafe for several years, bringing new customers and increasing popularity.
- Experienced in website development and maintenance, having created several for different sized companies.
- Managed social media accounts in the past, including working with paid advertisements on both Instagram and Facebook.
- Years of experience in using design softwares including Adobe Photoshop and Illustrator.

WHY ME?

Combining my experience with my creativity I believe I am the best person for the task. The position needs someone who is hard working and determined, both of which I am certain I will fulfil.

This role would allow me to expand the already large member base of the society, by advertising it further leading to bigger and greater opportunities.

If selected I'll ensure every event is well advertised and that all promotional materials are both engaging and match the event theme.
