

ABOUT ME

Hi! I'm Izzy and I'm third year studying Physics with Astrophysics. I'm going into my 4th and final year and would love to make the most of it by being your treasurer! I have been introduced to the theatre world since meeting some amazing theatre lovers, and I now love it too!

WHY YOU SHOULD VOTE FOR ME

Through meeting all my theatre girls I have been fortunate enough to see so many shows across multiple societies and have been involved in several TG workshops. I've got pre-existing relationships with people on the society and in others like OT, SMS, MT, PCI, and LSTV, so will be able to communicate effectively with them to try and collaborate with a wider range of performance societies. Also, I'm an astrophysicist so you can trust me with the numbers!

MY PLANS FOR NEXT YEAR

- To make it quicker and hassle free to get reimbursements for shows - they're stressful enough without having to worry about not getting your money back!
- To try and create individual budgets for each show.
- To help make everything affordable for everyone so no one misses out, such as negotiating and applying for more grants so people have the opportunity to do things they haven't been able to afford before.
- Overall to just make sure all payments and budgets go through smoothly so money isn't a worry!
