

Bella 4 Breakfast

MY AIMS

Collaboration, I want to create connections between the breakfast shows, doing more socials and suggesting segments or games that they can all do in order to create a close community full of friendship, advice and ideas.

Confidence, it would be a priority of mine to ensure that everyone is happy coming to me either in person or anonymously through a form.

Comfortable when using all of the radio equipment, as I know from personal experience that it can be daunting when technology is unfamiliar.

Creating opportunities for breakfast members to develop skills for their CVs by finding gigs to cover and society's to collaborate with.

PICK ME, CHOOSE ME, LOVE ME, BECAUSE...
