

MathWorks Presents

# SIMULINK Onramp Workshop

Learn the Basics. Level Up.  
Enjoy Free Pizza and Prizes!

 **Date: 25 FEB 2026 (TUE)**

 **Time: 12:30 – 13:30**

 **Location: Mechanical**

**Engineering Lecture Theatre B**

**Simulink Onramp** is a beginner-friendly 1-hour guided workshop + self-paced completion that teaches you how to:

- Create Simulink models
- Edit blocks and subsystems
- Run simulations and analyse results

# Simulink Onramp

Description - A three-hour course designed to teach users how to create, edit, and simulate models in Simulink. This course is very beneficial to those who have never used Simulink. Unlike the first two, this onramp will have to be downloaded as an add-on to MATLAB.

Who is it for? 2nd, 3rd and 4th year students mainly in mechanical and electrical engineering. This course is more designed for those who model systems such as robotics, vehicles, electronics, ODEs or fluids.
