

HANNA FOR

SUPPORT

Why you should vote for me!!

I aim to maintain our established relationships with the sports societies by continuing the swaps. Possibly doing a few more throughout the year. LSTV could also get more involved with these societies by attending games around campus and filming fun easy content, much like we do during varsity and christie.

I also think it would be great to get involved with local teams around the city to showcase the vibrant sports culture.

The most essential aspect of my aims as head would ultimately be making more sports videos, whether that be making shorter and lighter form content with light entertainment, or more long form content with News and Documentary!
