

# Vote Rebecca for Careers Secretary !

## About Me:

- **First year Law LLB student**
- **Aspiring youth criminal solicitor**
- **Experienced in leadership and teamwork: I have been** Team Leader at a café, Deputy Head Girl and a music prefect at my Secondary school, part of the Cerebra Pro Bono Research project team, and Treasurer of a youth council group in my hometown. However, I can also work independently when required, as demonstrated by the fact I am a Laidlaw Scholar.
- **Experienced in running events:** I was responsible for the development and presentation of many music concerts, open evenings and whole school assemblies during my time at college and secondary school.

 I'm a determined, motivated and approachable individual.

More than anything, I just want you to enjoy your time here at Leeds, so I'm always open to feedback and suggestions, and I'm determined to offer you the best opportunities possible!

## My Ideas:

- **Increased involvement:** I want to put emphasis on bringing in new members via a big recruitment drive at Freshers Week, increased liaison with the LawSoc, frequent member emails and continuing the close relationship with the School of Law
- **Charity elections:** I believe that people are more likely to get involved with events if they focus on something they are passionate about. For this reason, I want to introduce charity elections at the start of each semester, where members are able to vote for and suggest charities they would like to get involved with. That way, the charities we support will be closer to the member's hearts.
- **Support the law society:** As a Law student, I have many ties with the LawSoc, and as there is strength in numbers, I will ensure to increase co-operation with them when hosting events such as guest speakers and workshops as the higher the turnout, the more events we can make possible
