

## A little bit about me:

- I am currently a third year medic and have been part of Wilderness Medicine since day 1 of med school
- I aim to spend every moment of my free time outside, whether that's running, walking, climbing, you name it
- When things get too much my life motto is to touch some grass
- My career aspirations mostly involve treating patients anywhere but inside a hospital, and preferably involving a helicopter
- Wilderness Medicine is my absolute favourite part of uni!

→ Me, Wilderness Medicining...

→ Touching some grass with a spot of Wilderness yoga

In my happy place!

# Trinity for Vice Pres

## What I would want to do as VP:

We all know that WM is already pretty fantastic, but as VP there's a few things I would like to do to make it even better...

- Support the organising and delivery of a regular teaching series with more simulation practice
- More collabs with other societies who can teach us some cool wilderness skills and we can impart some of our WM wisdom
- Together with the president and the rest of the committee, organise a Leeds Wild Trials for everyone to get stuck in and experience what Wild Trials is all about
- Just generally be the yes woman for our fabulous President and committee to help us all collectively make WM even more incredible!

## What makes me right for this role?

- I already have a year of experience doing it! The past year I have been VP to the wonderful Ruby, so I have a good amount of experience of what the role entails
- I am a keen teacher and thoroughly enjoy being part of teaching, both on campus and out in the wilderness on our trips
- Together with the rest of sub-committee, I helped organise Northern Wild Trials for 70 people, including writing exciting and challenging sims
- I'm truly passionate about prehospital medicine and love being able to share that passion with the rest of you lot, whilst just having a great time in the process!
- WM committee is the most wonderful bunch of people and I would love the opportunity to continue being a part of that!
