Organisation:

Being a Polo VC means that there are times you need to be organized whether that is getting referees for the games or getting the buses ordered for away games. Well, I am here to reassure you guys that I have previously had lots of experience both hosting and organising sporting events at school and know how important it is things run smoothly and make it my life's (immortal) mission to stay on top of things (wink wink). I will dedicate as much as I can to this position in the society and give everything to the society I have including my body ;)

Assisting where I can:

Just like Wolverine dedicates his time to his humble friend/leader Professor X, I will do this for our new Polo Captain. I will be there to help him every step of the way whether that is trying to fit in extra training sessions to unlock our full mutant potential or when it comes to helping the captain with the social aspects of the sport, like getting as much support for each game as we possibly can. I will also make it mandatory for a post training pint as there is nothing better than the sweet feeling of victory through a pint. Furthermore, I would also like to organize more team meals throughout the year to give new people joining the society to meet people outside training. Swimming...what?

In a life before my adamantium upgrade before I started water polo, I used to be a swimmer.... (Swimming isn't that bad). Because of this, I have lots of experience with swimming sets and can use this to our advantage on a Thursday to increase our squad's fitness level and speed. I have been lucky enough to lead multiple Thursday sessions already and believe this can be used to the team's advantage to get repromoted.

I will also try and help organize more Polo 2s games so that everyone has the opportunity to further improve and grow as a player even if aren't in the first team as team morale is a key aspect to success.

VOTE WOLVERINE FOR THE END GAME!!!!
