

HELLO, MY NAME IS

Anika Sandwar

✉mjsf7639@leeds.ac.uk

ABOUT ME

Hi! I'm Anika, a second-year Electronic and Computer Engineering student, and I'd love to become your Professional Outreach Officer. I'm applying for this role because I want to help create more meaningful opportunities for members to connect with industry professionals, academics, companies, and professional bodies. I believe having access to talks, workshops, networking events, and career-focused sessions can be really valuable, especially for students who want to learn more about different career paths and build confidence professionally

MY EXPERIENCES

- Led an engineering and data analytics project during my summer internship.
- Volunteered at the Leeds Euro 2025 conference.
- Worked in a thrift store, developing communication and teamwork skills.
- Volunteered at an animal shelter, showing reliability and commitment.
- Organised and led multiple Model United Nations activities.
- Worked on several engineering projects involving teamwork, planning, and communication.
- Comfortable reaching out to people professionally and maintaining clear communication.

WHY ME

- I'm extremely reliable and would make it a priority to make an effort and bring energy to my role.
- Due to working in previous group assignments and leading multiple projects I've developed good communication skills.
- I have great attention to detail and will make it a priority to finish everything perfectly.
