

STREASURER?

YASHVI AVASTI

ABOUT ME:

- Hi, this is Yashvi currently a first year undergrad studying BSc in International Business. I am originally from India but lived in Hong Kong most my life. I am really passionate when it comes to learning new things and meet new people. I believe that fashion makes everyone different and unique, bringing ourselves of our individuality.

WHY:

- I think I would be a suitable candidate for the position of treasurer as I have had experience when it comes to handling budgets and producing accounts as previously; I was a CEO of a student-lead business where we sold eco-friendly products, I worked with our finance representative to allocate expenditure towards product manufacturing and marketing. Additionally, I am a Course Representative for my course, where I act as a bridge of communication between staff and students, so I have prominent communication skills and leadership skills. I am also a good team player, I was a vice head prefect where I worked with different people from cultures and backgrounds.
- I believe becoming a treasurer would not just give me a chance to exercise and use my financial skills but also at the same time this position will allow me to make new bonds with new people during my time at uni. I look forward to becoming apart of a team that presents fun and engaging events, and working alongside the social secretary to ensure everything is covered in budget.
