

Ben (Alex) Smith For Head of Production

Who even are you?

I'm going into my final year at uni, I've been an active member of LSR for two years, and Head of Music for the past year. I've had so much fun being on committee this year (and won some awards, not-so-subtle flex), and I'd love to continue helping LSR be the best student radio station in the country (in my unbiased opinion). I also spend 99% of my time in the studios so will always be on hand to help out!

In all seriousness...

I have loved being part of this society, and desperately want the chance to give back, so here's some of the reasons you should vote for me:

- I have a keen passion for audio technology, and lots of experience editing, mixing, and mastering recordings.
- I'll create guides for how to use each and every piece of gear we have, and the basics of audacity and other DAWs.
- Offer training sessions on all the key skills to help improve the quality of your interviews/recordings etc.
- Provide a Google form for you to submit any jingle/bed request you want me to make.
- Offer one-to-one assistance for anyone who needs help, whether you're editing an interview or want to learn how to set up an OB, I'll be just be one message away.
