

# Izzy Copeland for President

Hi, I'm Izzy

I am currently a second-year student studying Biological Sciences. This year I have been an active member of the FoBSoc committee as the treasurer. My past year on the committee means I have experience in how to run events and support the society to make the fulfilling for everyone.

This past year we have still been shadowed by the effects of COVID-19. Therefore, as president I promise to promote the society and organise inclusive events for all. I aim to build the society up to what it was prior to the pandemic.

I believe it is crucial society member to get to know each other to provide both a social group for nights out and a support system for our courses.
