

Vote Toby for President!

I will be a 4th year Environmental Science Student, but it will actually be my 5th year as part of LUU Volleyball. This society has been a massive part of my University experience and I am looking forward to further growing and improving the society from the top spot. I have 2 years of executive committee experience as Treasurer. I have also lived with a president during one of those years, so I know a lot about what goes on throughout the year.

I am a hard worker and love to be busy, which this role will easily fulfil. I have excellent time management skills which have further improved during my year in industry. I believe I am an excellent leader and I look forward to leaving my mark on LUU Volleyball in my final year in the society.

My first thing I will be doing as President is to send out a google form to all the society's members to get feedback from everyone about what they have loved about Volleyball and what could maybe improve. I will try my best to incorporate all feedback into how the society is run.
