

Alexia for Vice President

Hi I'm Alexia and I would love to be the next Vice President for the Pilates and Wellness Society !!

I am a 2nd year LLB Law Student and the current Wellbeing & Mental Health Officer for the Society!

I love going to the gym, doing yoga and now have fell in love with pilates! One of my first times doing pilates was with the society, and I would love to continue working with the society to create a welcoming environment for anyone who would like to try pilates!

The reformer and hot pilates sessions are so fun and challenging and I would love to keep making pilates accessible for students as it is a great way to stay active alongside studying.

As Vice President I would ensure that the society continues to run smoothly to create and promote a supportive environment that prioritises wellbeing to help everyone feel included, even within socials.

I would love to support anyone wanting to join the society to feel comfortable and confident in achieving their pilates goals!!
