

# Hi, I'm Isla

## I'm running to be your Clubs & Societies Rep!

Societies have been a huge part of my experience so far – they've helped me make new friends, connect with people in older years, and most importantly just enjoy being at uni. I want everyone to have those same opportunities.

### Why me?

- Regular at MedSoc socials
- Involved in multiple societies (including netball & hockey and teddy bear hospitals )
- Friendly, approachable, and a strong communicator

### What I'll do:

- Build strong relationships with societies across medicine and the wider university
- Organise collaborations and joint events that everyone can enjoy
- Act as a link between MedSoc and other societies by building strong connections
- Make societies more inclusive and accessible for everyone to get involved
- Organise more give it a go's and society fairs for societies later in the year
