

Leeds Uni Judo Club Covid 19 Risk Assessment

Covid-19 risk assessment for the University of Leeds Judo Club for the academic year 2021/2022.

Due to the dynamic state of the Covid-19 pandemic it is possible that this document may have to be revised to reflect changes in national policy.

The University of Leeds Judo Club will also conform to the risk assessments of Leeds University Union, The Edge Gym, and British Judo. In the case that these institutions have policies which conflict with each other. This club will follow the measures which are deemed to best protect the health of our members.

This Risk Assessment is in addition to the annual Risk Assessment and the Risk Assessment of any facility you are visiting. The LUU Clubs and Societies Risk Assessment is to be read in conjunction with the LUU Safe Operating Practices for Clubs and Societies.

This Risk Assessment supersedes the general Covid-19 risk assessment contained in your annual risk assessment. And the society will risk assess specific activities and any outdoor activity conducted on campus.

As the name of the document may imply, the hazards presented in this document amount to the infection, and spread of COVID-19, the types of harm presented by the infection itself can be both short term and long term, and are described on the following page:

<https://post.parliament.uk/short-and-long-term-health-effects-of-covid-19/>

Likelihood x Consequence = Risk

1-3 rating

1= low risk

3= high risk

Risk mitigation outside of planned sessions

Hazard	How might someone be harmed?	Required control measures	Additional control measures	Risk rating*		
				L	C	R
Spread of Covid 19 - Catching Covid-19 - Covid-19 spread to other students - Covid-19 to members of the public - Covid-19 to other users of the same LUU space	These people get Covid-19 These people spread Covid-19	Minimising the risk that COVID affected individuals will attend sessions	Advise all individuals intending to train to take steps to ensure they are fully vaccinated where possible. Request that individuals wishing to train take a lateral flow test prior to training Individuals showing COVID symptoms will be advised not to train for the safety of other members	1	3	3
Further spread of Covid 19 in the case of a member testing positive - Catching Covid-19	These people get Covid-19 These people spread Covid-19	Ensuring individuals attending sessions provide contact details and can be contacted in the case that there are cases of infection within the society	Encourage individuals who have attended sessions to inform the club if they have tested positive for COVID-19	-	-	-
