**for your PPE Society Treasurer**

I saw the fact that Leeds had a PPE society as a real strength when I decided to come here. Whilst I love the variety of our course, being scattered across three different schools can make it harder to get a sense of the people on your course. Having a PPE society makes it much easier for us to get to know each other; drawing us together and providing a course identity. I have found the society great for this and wish to help continue this work as treasurer.

I have previously worked in the financial reporting team at JD Sports and wish to use that experience to provide both financial sustainability and value for members as your PPE society's treasurer.
