
Matt Danton for Treasurer

Profit & Loss statement

*Hello my fellow SWP members. I have decided to style my manifesto based loosely on a profit/ loss statement, in order to present myself as fiscally responsible.
Please vote for me!*

Revenue (What will I do)

- *Ensure greater synergy between the treasurer and other members of the committee, in particular the captains, whose budgets are through the university funding (and not social account).*
- *This will ensure that all committee members are clued up on the finances, and also that no money is wasted (Less wastage = more money = more fun!).*
- *Build a strong relationship with the activities team within the union to create consistent budget preparations, so as to not over or under budget for the year. This will also be important for future years.*

Profit (Why vote for me)

- *Being an economics student and undertaking a master's in economics and finance next year, I understand how to handle money responsibly, and will continue the great work of George Alton.*
- *Having been on the committee for the past two years, I am aware of how all the roles work and fit together. This understanding will help with the role of treasurer, as money touches every part of the society.*
- *I am aware of the seriousness of this role, and I believe that I will be able to ensure responsibility with the clubs' accounts. This is after all, a smaller scale version of what I will likely be doing as a job in a couple of years (fun, right?).*
- *Having said that:*
- *I do love fun.*

Loss

- *Am quite fond of a beer.*

Please vote DANTON FOR TRES!!!
