

PUBLICITY & Communications

NO CONFUSION. JUST PUBS & COMMUNICATION

ABOUT ME

Hi! My name is Cosmo, I would enjoy the opportunity to be your next publicity and communications officer for the committee.

I'm 19, and in my 1st year studying Product Design. So far this year, I have done Lighting Design for dance show, and Gen Crew for Urinetown, Outside of Uni i have worked on 12 shows and learnt all of Les Mis, you can quote me on that.

MY BELIEFS

I believe that it is very important for members and the public to be more informed on the events and opportunities that backstage offers. Backstage is where everything happens - but not everyone sees it. I want to change that by showing more of the hard work everyone puts into a show (and the slightly concerning sleep schedules behind it)!

WHY ME

I have access to Adobe Cloud (scary), which will help to increase visibility, leading to better attendance and more engagement. I am looking at different ways to improve the society by maintaining communication.

I am quick at replying (chronically online!), making me an effective port of access within the committee for help and support.

VOTE COSMO | I hope to see you all on more shows to come | Thank you :)
