

Vote Rebecca for Sports Secretary!

About Me:

- First year Law LLB student
- Massive football, skiing, ice hockey and Formula 1 fan
- I have played football for many years
- **Experienced in leadership and teamwork:** Team Leader at a café, Deputy Head Girl and a music prefect at my secondary school, part of the Cerebra Pro Bono Research project team, and Treasurer of a youth council group in my hometown
- **Experienced in running events:** I was responsible for the development and presentation of many music concerts, open evenings and whole school assemblies during my time at college and secondary school.

✓ I'm a determined, motivated and approachable individual.

More than anything, I just want you to enjoy your time here at Leeds, so I'm always open to feedback and suggestions, and I'm determined to offer you the best opportunities possible!

My Ideas:

- **Increased involvement:** by liaising with the community engagement secretary to run more charity matches and events, hosting more one-off games for those who have little sporting experience/little availability, and encouraging the law society members to observe the law sports teams' games
- **Sport watching socials:** For those who may not like playing sport but love to watch it, I want to arrange more socials where you can watch and talk about sport whilst meeting others on the same course, for example by attending local ice hockey or football matches, or watching sporting events on the TV
- **More beginner sport sessions:** I know lots of people find going to the gym or playing a new sport daunting, so I will run sport-related networking events, like casual gym sessions, designed for people of all abilities
- **Support the law society teams:** I will continue the work of Isobel by supporting the netball, rugby, football and running law society teams and their captains.
