

LINLEY

FOR VICE PRESIDENT

3rd Year Medic

Ever since being a part of lumsoc, I've had the chance to stumble upon many serendipitous moments. Moments like having heartfelt exchanges with one another to working with incredible Malaysians during MNight who were also part of lumsoc. These wholesome interactions have made me grow fond of lumsoc and inspired my decision to run for vice president. I hope to carry this sense of **comfort and belonging** I've gotten forward to other Malaysians.

GOALS

1. Work closely with the President in overseeing all responsibilities and events.
2. Oversee (+ ensure) **welfare** and **communication** between committee members.
3. Coordinate **ideas** and **efforts** put forth by fellow members.
4. Increase socmed presence by incorporating fun & engaging content (+ work closely w social officer).
5. Enhance career insights & networking opportunities (e.g. career fairs w partner organizations).

EXPERIENCE:

- uni representative (uk medical students association, ukmsa)
- flagship events co-ordinator (school of medicine project)
- volunteers lead (covid-19 vaccination programme)
- section leader, general affairs co-ordinator (high school orchestra)

I would love to uphold this wholesome community by **supporting** and **cultivating** initiatives that will ultimately benefit incoming freshers as well as our community as a whole.
