
**IMOGEN
KIRKPATRICK
FOR MSRC
SUSTAINABILITY
REPRESENTATIVE**

Vision:

Coherent course with the space for people to grow individually and give back to the community whilst supporting students, staff and being conscious of the environment

Strategy

Goals and objectives:

Economically: MSRC involvement in the push for student finance for more than 4 years

Environmental: Worsley building using recycled paper

Human: make the sustainability garden a place of wellbeing for students

Social: back the strikes for academics and University staff, to improve the University for both students and staff

To have productive conversations with the University, Union and LIME to discuss these issues and what we can do to support students, staff, the public and the environment

To increase social media use, posters and awareness around topics such as University strikes, staff misconduct and events to help out with in the community

To create more comprehensive and helpful feedback between students and the University to improve issues such as over asking for feedback and social aspects of sustainability
