Vote Hope for Discussions Coordinator

About me

Hi. I’m Hope, a second year studying history and sociology. I’ve loved being in Fem Soc this past year, especially the political discussions we have had which is why I would love to be your Discussion group coordinator!

Why me

- I am passionate about **intersectional, representative** feminism. My particular interest is in the issues facing disabled women but whoever you are, whatever your background I will ensure discussions are representative of **you!**
- My main agenda would involve collaborating with other societies containing marginalised women such as LGBTQ+, Disabled and Neurodivergent and Her Campus to ensure representative discussions where those affected by issues are front and centre.
- I’m friendly and approachable and always open to suggestions!
