

VOTE TYLER FOR EVENTS COORDINATOR

!!!

Why vote for Tyler?

- I am a current 1st year Geology student with an interest in the mineral exploration industry, particularly the Lithium mining and exploration.
- I have previous experience in organising events such as local football galas and international football galas in Italy through previous work experience.
- On top of this, I am both enthusiastic and easy to talk to and willing to hear feedback on how we can improve SEG.

What can you expect from me?

- If elected, I will aim to boost the number of field trips and events offered by SEG, often aiming to offer areas – events which have not previously been offered.
- However, I will also ensure events and field trips are kept affordable for students and lecturers alike.
- Contributed to this, I will also encourage the re introduction of international field trips such as the Iberian Pyrite Belt field trip in 2025.
