OVER THE LAST YEAR I HAVE EXTREMELY ENJOYED PLAYING POKER AT LEEDS UNI. ITS MY LOVE FOR THE BEAUTIFUL GAME AND THE SOCIETY THAT HAS MADE ME DECIDE TO RUN FOR POKER SOCIETY PRESIDENT 24/25.

WHAT I WOULD ADD AS POKER SOCIETY PRESIDENT

- Firstly I would like to maintain the great atmosphere that the committee created this year as I believe they created a perfect environment to play Texas hold em poker.
 - Introduce more bounty and mystery bounty style tournaments to poker soc.
 - Also want to introduce some sit N go style games and possible heads up tourneys, if there is the demand for them.
 - Speak to local casinos and bars to try and find some exterior spots to play poker at for special events!
 - Creating a leaderboard for cash games and tournaments each semester that will result in the winners getting cash and other prizes.
 - Implement a discord or other chat platform where Leeds players can play online together, and can post difficult situations or ask for advice to try and improve there skill level.
 - Look into using society funds to possibly access solvers that most uni students do not have the bank roll for so that we could all use them to improve are game.
 - Keep are inter uni activity high and keep competing in larger uni tournaments, and possibly look into hosting some are selves.
 - As a society which has many applicable skills to the finance Industry I believe we are an attractive group of uni students in the job market, and I will look for sponsorships from these types of companies to increase the cashflow we have in poker soc.
 - To further increase the amount of players, at the start of next year I would implement a couple of free roll tournaments to give new players a chance to see what the game ls about without having to pay.
 - I would also keep providing good social experiences, like the previous committee did by going to mischief or heading to the casino as a society. Allowing members an opportunity to get to know players off the table.
-
