

Hello! My name is Nicole and I am hoping to become your vice president of 2023/24 Filipino society. I am currently studying Medical Microbiology in my first year here in Leeds and I have travelled from my home town St Helens, Merseyside where I was born and raised. I have decided to run for vice as I have enjoyed Filsoc this year as it has helped me become more social, outgoing, and welcomed. I have also made so many friends and memories that will stick with me forever. I want other people to experience what I had and to keep loving the Filipino culture or even learn more about it!
